you increase the number of followers every little detail matters when it comes to optimizing your profile the profile picture username or the personal information you provide can all leave a strong impression on people who visit your profile a long username that is hard to remember isn't going to help you gain more recognition mostly because everyone is going to forget it soon after they hear it pick a short and catchy username that stands out and try avoiding using different usernames on different social media accounts let others know what types of videos they can expect from you by mentioning that you love making fitness videos vlogs or simple music videos in which you showcase your singing talents however it is also indispensable to be as specific as you can so besides saying that you're producing fitness videos it's also helpful if you mention that you're making yoga or aerobics videos your profile is the first step to establishing communication with new followers which is why it is important to do everything you can to encourage others to hit the follow button and start communicating with you this is a simple and effective way to gain the attention of tiktok's most influential users pinpoint the most successful users in your niche and follow and unfollow them until they follow you back although it may seem silly this strategy actually works because after enough attempts your favorite members of the platform will look at your profile and follow you back if they like what they see try to comment on their videos because tiktok stars share on their profiles can potentially increase the chances of being followed back especially if your comments are always on point some of the people whose work you appreciate maybe even willing to share their secrets and help you get more followers
